do so as reported by a CPRA Director, Judge, Rodeo Secretary, or Contestant will result in a Board inquiry and possible fine of (\$75) seventy-five dollars per rodeo and doubling with each infraction thereafter. If the official CPRA flag becomes lost or destroyed, the CPRA will replace the flag and the stock contractor will be responsible for the cost.

9. All stock contractors must own fifteen (15) bulls and twenty-five (25) horses. If entity uses more than one holding brand on its animals, the names of all registered brands must appear on inspection papers in the state office.

Established contractors need not send in brand inspection papers every year. Brand inspection papers will need to be renewed and turned into the State Office by NEW contractors for the first two years. Non-compliance could result in cancellation of Stock Contractor membership card.
 - a) New Stock Contractors will have (30) thirty days prior to the stock contractor's first CPRA rodeo to comply with this rule.
11. All CPRA stock contractors must comply with rule #9 & #10 whether they produce a rodeo in that calendar year or not.

2. These rodeos must be sanctioned CPRA first. If the entity applying for new stock contractor status is that of a partnership, corporation or other legal entity, all partners and officers must be listed on the original application at the time it is submitted to the Colorado Professionals Rodeo Association for approval. If said entity plans to use more than one holding brand on its animals, the names of all individuals of said entity must appear on said registered brands to be used. The CPRA will consider this as ONE entity regardless of the number of individuals involved.
3. New Contractors will be subject to a one-year probation period after which the Board will review the application.
4. The date of the first rodeo produced by the probationary stock contractor will be the beginning of the probationary period of at least one year. If there are no concerns said contractor can be approved after their probationary period. If there are concerns a letter shall be drafted by the CPRA and sent to the contractor with any issues that need to be corrected. Said contractor will need to produce two CPRA sanctioned rodeos to demonstrate they have corrected any and all issues stated by the CPRA before they will be approved.
5. The contractor must own fifteen (15) suitable bucking bulls and twenty-five (25) suitable bucking horses and must have proof of ownership. Proof of ownership must be submitted at the same time as the rodeo sanction form(s) and bond money. The state office will forward a copy of said brand inspection papers to the Stock Contractor Representative and it will be the Stock Contractor Representative or his appointed representative who will verify this information.
6. New stock contractors will be required to post a fifteen hundred (\$1,500) dollar (cash or certified funds) bond with the Colorado Professional Rodeo Assoc. for inspection fees, cancellation of rodeos, or other expenses incurred by the CPRA. This bond will be held throughout the probationary period, and returned when all requirements have been satisfactorily met.
7. Probationary Contractors will not be eligible to bring stock to Finals.
8. If approved by the Board, after the first year of probation the new contractor will be considered an approved CPRA Contractor and may then bid on existing CPRA rodeos.

9. The Board reserves the right to extend a probationary period or not approve a contractor. If the Board elects to extend the probationary period of a new stock contractor and said contractor elects not to remain on probation for a second year, they may submit a letter to the CPRA Board stating that they withdraw their application for further consideration. The CPRA will, upon receipt of said letter, refund the bond posted by said contractor, minus any expenses incurred by the CPRA for per-approval verification. Unless an individual or partnership, purchases an existing CPRA Stock Contractors card, they must wait a period of one year before they can re-apply as a New Stock Contractor(s).

7. In order to be eligible for the Rookie Award, a contestant must declare him/her a rookie in writing on his/her initial membership application and sign the rookie release form.

C. QUALIFICATIONS FOR THE CPRA FINALS

CONTESTANTS:

1. The top twelve (12) contestants per event will be eligible to enter the Finals.
2. **Team Ropers:** Open Team Roping entries will be determined by pairing a top twelve (12) Open Header with a top twelve (12) Open Heeler etc., until twelve (12) teams have entered the Finals. Mixed Team Roping entries will be determined by pairing a top twelve (12) Mixed Team Roping Qualifier with the current CPRA member of her choosing.
3. Contestants may only enter each event at the CPRA finals one (1) time. i.e. A contestant may not enter the Open Team Roping as both a header and a heeler, even if his points would qualify on both sides. Inversely, as the Mixed Team Roping and Open Team Roping are separate events, a contestant may enter one as a Header, and the other as a Heeler.
4. Money won will be the first determining factor, and then the number of rodeos entered.
5. If a contestant enters and turns out of the Finals, he/she is responsible for all fees if a replacement is not found.
6. To be eligible for Finals and/or year-end awards, contestants must be entered in the Finals, and compete in two (2) rounds unless injured at the finals, or in the opinion of the CPRA

Board of Directors the Contestant has a justifiable reason for not competing.

7. The Board of Directors will set the number of go-rounds for Finals.
8. If a contestant qualifies for the year-end finals in their respective event(s), and is also qualified as a contract labor person (i.e. bull-fighter, pick-up person, judge, secretary, timer, or announcer) for the finals; it will be the contestant's responsibility to notify the State Office thirty (30) days prior to finals entries, and the vote for contract labor as to which one they wish to participate in. A contestant card member will not be permitted to participate in both - as a contestant and a contract labor person.

STOCK FOR THE FINALS:

RIDING EVENT STOCK

1. Stock contractor qualification for eligibility to attend the Finals is to produce at least two (2) 1st sanctioned CPRA rodeos. For stock to be eligible for Finals and/or year-end awards, they must be present at the Finals. The only exception is if the stock is injured.
2. The stock contractors will send a list of the animals he/she feels should be brought to the Finals. The list will be sent to the Stock Contractor Representative by August 1st. Once the list is received, these animals are committed to the Finals.
3. Rough Stock of the Year must be at the Finals and in the final performance unless injured.
4. Rough Stock Contractors will receive one hundred thirty dollars (\$130) per out. Animals chosen for re-rides in the final round will not be paid for unless used.
5. The Director of each riding event will review the list and will enlist the help of contestants to choose Finals animals. Total number of animals must be two(2) times the number of contestants, plus two (2) re-rides and two (2) alternates, in case of an injury. Each riding event director and/or Stock Contractor Representative will, within two weeks prior to the first scheduled performance of the CPRA finals, notify each rough stock contractor which of their animals have been chosen for the finals.
6. Once the list is chosen, the contractor has twenty-four (24) hours to commit to bringing these animals to the Finals.
7. The only acceptable reason for a stock contractor not to bring an animal to Finals that he/she has committed is if the animal

is sick or crippled.

8. Once an animal is voted into the Finals but becomes injured or sick and is unable to be brought to the Finals, the Event Director and the Stock Contractor Representative will be notified. The 1st alternate animal, and on down the list, will be picked until the appropriate number of animals are acquired. The proper stock contractor will be invited to bring their animal. Any contractor violating this rule will be fined two hundred dollars (\$200) for each occurrence/animal.
9. Contractors will bring only designated stock and only the proper number of stock unless approved by the Finals Committee. Stock contractor will be fined fifty dollars (\$50) per head for all undesignated (extra) stock brought.
10. If a stock contractor decides he/she is not going to come after committing - he/she will be fined five hundred (\$500) dollars, or one hundred fifty dollars (\$150) per animal whichever is greater, unless a vet release is provided for each animal committed.
11. To be eligible, any rough stock animal selected for the finals shall have a permanent ownership and identification brand (hot iron or freeze brand) in the stock contractor's name at the time said animal(s) are submitted for Finals consideration. Ownership will be confirmed by the Event Director for the event the animal(s) is selected. A valid bill of sale and/or State Brand Inspection from the stock contractor's state of residence will serve as proof of ownership. If it is found that the animal(s) do not meet these requirements, the contractor will be fined in the amount of what that were to receive for coming to the finals and CAN NOT pull said animal(s) from the draw. Said animal(s) will not be eligible for any year-end or Finals awards.
12. Probationary stock contractors are not eligible to bring stock to the Finals.

TIMED EVENT STOCK:

1. Timed event sub-contractors who have supplied cattle to CPRA rodeos throughout the year have first option to supply cattle for the CPRA Finals as long as the cattle are adequate. Sub-contractors will have the opportunity, if necessary, to acquire fresh cattle for consideration for the finals.
2. Each Timed Event Director will be responsible for selecting the cattle used in their event for the finals.

3. All timed event animals selected must comply with all rules for timed event animals as set forth in the current CPRA rulebook.
4. Stock charge for timed event animals selected for the finals will be pre-approved by the CPRA Board of Directors.
5. Timed event contractors and/or Event Directors will provide a minimum of 15 head of desirable and useable animals.
6. A pen of 12 animals and 3 extras will be cut prior to the first performance. The Event Director or his/her appointee will designate the extra animals to be cut.
7. These extras will become "designated extras" to be used in order drawn, to replace any sick or injured animals from the original pen.
8. All tie-down animals at the Finals should be fresh and ground tied before the first draw of the first performance. The Tie-down Roping Director will be responsible for these arrangements. At the discretion of the Tie-down Roping Director, missed animals and extras will be roped and tied from a horse before the next performance. Animals that got up during competition will be thrown by hand and tied with the extras.

D. TURN-OUTS

1. Turnouts and Holding of Stock - Once a head of stock is turned out because a contestant is late, that contestant is considered to have turned-out, and under no circumstances will the stock be brought back, unless conditions of Central Entry Rules, Section E, and Rule 5 can be met. If contestant gets hurt at the beginning of the rodeo, contestant may be moved to the end of the section or go-around at the Finals.
2. Any member refusing to pay fees and/or fines will be put on the Rule Infraction List and will not be allowed to enter at any CPRA rodeos. All monies accumulated toward the year-end awards and the Finals rodeo will be withdrawn until restitution is made. All unpaid fines will be sent to collections after 30 days.
3. Should a member end the rodeo year on the Rule Infraction List, his/her violation will be carried to the following year and he/she will not be allowed to purchase a card until violation is paid.
4. **Team roping** - Because this event involves two (2) people there have been some specific rules set up for situations where one partner is present and the other is not.

- a) Team roping - If one partner is not present, the other person has the option of finding a partner among those who are entered in the rodeo. If he is able to fill the position, that person will pay applicable fees.
 - b) If unable to find a suitable partner, turn-out policy will apply to both partners. The partner who did not show up will be put on the Rule Infraction List as a turnout.
 - c) Medical-Out, Team roping; if one partner medicals out, the other partner has the option of picking up a partner already entered in the rodeo, or he/she may draw-out with no penalty, however that person is responsible for the office charge.
 - d) Medical releases that are not sent to the State Office within seven (7) days become a notified turnout, and all fees are applied.
 - e) *OPEN TEAM ROPING & MIXED TEAM ROPING: ONCE YOU ARE ENTERED, AND BOTH PARTNERS ARE AT THE RODEO, THAT TEAM MUST COMPETE AS ENTERED* (doctor's release procedures may apply.)
5. To facilitate turnouts and medical emergencies please call the turnout answering service at least three (3) hours before the performance in which you are entered. The secretary will check the answering service prior to the draw for that performance to get an update on any changes in entries. This advance notice will save you the cost of a turnout fine although your entry fees and office charges must still be paid. In the event of a medical or vet release you will not have to pay the entry fees, but will be responsible for office charges.
 6. **Notified Turnout** means the contestant has called the turnout answering service and recorded turnout or vet/medical release at least three (3) hours before the beginning of the performance in which he/she is entered. There is no fine for a notified turnout; however, the contestant is liable for the entry fees and office charges. In the event of a notified medical/vet release only office charges are assessed.
 7. **Late Notified Turn-Out** means the contestant failed to call the turnout answering service three (3) hours prior to the performance in which he/she was entered but did call the turnout answering service before the final performance for that rodeo. The contestant will be fined ten (10) dollars.
 8. **Non-Notified Turnout** means the contestant did not call the turnout answering service to record turnout. The contestant

will be fined fifty dollars (\$50) and be liable for all entry fees and office charges.

E. MEDICAL AND VETERINARY RELEASES

1. Vet releases are only acceptable in the barrel race.
2. In the event of a medical emergency, members must notify the rodeo secretary before the beginning of the performance. A doctor/vet release must be sent to the CPRA secretary within seven (7) days. Entry fees for this member will not be added to the payoff.
3. The medical emergency release applies to personal disability and not to that of any livestock except for barrel racing horses. The vet-out rule for barrel horses will be treated the same as a medical release.
4. Current year: Contestant may have two (2) ten day (10) ineligibility periods and an unlimited number of thirty day (30) ineligibility periods from a medical or vet release.
5. At the time of the medical or vet release the contestant must designate whether he/she wants the ten day (10) or thirty day (30) ineligibility period.
6. INELIGIBILITY PERIOD WILL BEGIN AT THE PERFORMANCE OR SLACK THAT THE MEDICAL OR VETERINARY RELEASE IS USED TO DRAW OUT OF AND SHALL CONTINUE THROUGH OUT THE TEN DAY (10) OR THIRTY DAY (30) PERIOD.
7. Once a contestant has used both ten (10) day ineligibility periods in a given season, every medical or vet release thereafter will automatically last thirty days (30).
8. It is the contestant's responsibility to contact the State Office with all medical and vet releases, including rodeos already entered.
9. If a contestant competes during an ineligibility period, he/she will be fined one hundred (\$100) dollars for the first offense. If the contestant places, he/she loses the placing, forfeits any money won and must refund any money paid out in addition to the fine. The second offense results in Board action.
10. Written medical and vet releases must be in the State Office within seven (7) days from the date of the last performance of the rodeo of which the contestant medical or vet releases. If the written release is not received in the State Office in the required time period, the medical or vet release will be considered notified turnout. All fees will be assessed along with the 10 day, or 30-day ineligible period.

11. Contestants must call the turnout answering system three (3) hours prior to the performance of which they are to medical or vet release out of.
12. Medical and vet release contestants are responsible for the stock charge and office charge and will be put on the ineligible list until these fees are paid.
13. Visible injury releases from a CPRA judge are considered medical or vet releases. All rules that pertain to medical or vet releases apply to visible injury releases.

F. GRAND ENTRY

Grand entry participation by membership is encouraged. At sponsored rodeos, victory rides are mandatory. A ten-dollar (\$10) fine will be imposed for failure to do so.

G. RODEO LIVESTOCK

1. Animals, including steer wrestling and team roping cattle, must be identified by one of the following:
 - a) A hot iron brand number or a freeze brand.
 - b) A permanent, factory colored, numbered ear tag.
 - c) Stock Contractor of record will be allowed to use non permanent tags for one week in a CPRA rodeo season. Stock must be permanently marked thereafter; using hot iron brand, freeze brand or factory colored and numbered ear tags. Use of non permanent tags for more than one week in a CPRA rodeo season will result in a fine of five (\$5) dollars per head run without permanent marking.
2. Herd defined: In the timed events, "herd" shall be defined as those animals designated prior to the start of the first go-round to be used in a given event. Once a herd has been established for a rodeo, no animals may be added to the herd.
3. No duplicate numbers are permitted.
4. All rough stock must have permanent brands.
5. All timed event stock will be run through the event chutes and through the arena before start of the contest. It is the Judges' duty to make sure this is done.
6. No timed event cattle may be used more than three (3) times in one day. Stock contractor shall have the responsibility of bringing appropriate number of cattle to the rodeo to comply with this rule.
7. Stock Contractor will provide usable and desirable tie-down and breakaway animals as follows:
 - a) 1 to 34 contestants = $\frac{1}{2} + 1$;

- b) 35 or more contestants' minimum of 18 animals or $1/3 + 1$, WHICHEVER IS GREATER.

EXAMPLE:

42 entries: contractor must bring minimum of 18 ($1/3 + 1 = 15$)

60 entries: contractor must bring 21 animals ($1/3 + 1$)

No animal may be used more than three (3) times in one day. The event Director or his representative will declare desirable and usable animals. If the stock contractor does not have the proper amount of cattle, he will be fined fifty dollars (\$50) for each animal to make the correct number.

8. "**All Horned Cattle**" stock contractor will provide one-half ($1/2$) the number of desirable and usable horned cattle plus one (1) extra for the number of contestants entered in the team roping, mixed team roping, or steer wrestling. If the stock contractor does not have the proper amount of cattle, he will be fined fifty dollars (\$50) for each steer to make the one-half ($1/2$) steers plus one extra. Example: 60 entries, one-half ($1/2$) equal 30 plus one (1) extra.

a) When $1/2 + 1$ or $1/3 + 1$ equal an uneven number, the stock contractor will round **UP**.

9. All bucking stock must be proven. No tryouts will be allowed. A penalty will be imposed on those stock contractors who do not comply with this rule. A fine of fifty dollars (\$50) will be assessed.

10. Any animal used in the contest events of a CPRA rodeo may not be used in any way other than in the standard CPRA contest events of that rodeo until after the last time the animal has been used in the contest events.

11. Unhealthy/unsatisfactory stock may be removed at any time. The Board of Directors may impose a fine of fifty-dollars (\$50) per incident for non-removal of unsatisfactory stock.

12. Once a head of stock is turned out because contestant is late, that contestant is considered to have turned-out, and under no circumstances will the stock be brought back unless conditions of rule Central Entry Rules, Section E, Rule 5 are met.

H. HORNED CATTLE

1. Stock contractor and the rodeo committee will be expected to cooperate in trimming the horns of steers that are too wide to pass easily through the timed event chute.
2. All Steer Wrestling cattle must be Mexican cattle or pure-blood Corrientes cattle, and must be steers; no longhorn or longhorn

cross cattle, heifers, bulls or cows will be used. Any other substitutions must be approved by the steer wrestling director one week prior to any rodeo performance. Any cattle deemed uneven or unacceptable can be rejected by the steer wrestling director.

3. The horns on steer wrestling cattle must be blunted to the size of a dime. Horns must be no less than nine inches (9") on each side.
4. No animal will be allowed in the steer-wrestling draw with casts or rebar on their horns. Failure to abide by this rule will result in a fifty-dollar (\$50.00) fine per steer; fine to be levied against the stock contractor.
5. Cattle shall be protected by horn wraps in the team roping and mixed team roping. Horns on roping cattle must be blunted to the size of a dime. Failure to abide by this rule will result in a fifty-dollar (\$50.00) fine. Fine to be levied against the stock contractor.
6. Animals used in bull riding – refer to rules listed in bull riding section of this rulebook.

I. DRAWING STOCK

1. All stock in the contest events must be drawn by number. A CPRA judge and rodeo secretary will draw stock.
2. There must always be as many as four exact copies made of the draw, one to be posted, one copy for each judge, one or more copies for the secretary's records.
3. Stock numbers must be drawn from receptacle held above the judge's head, and numbers shaken between each number drawn.
4. Drawing must be conducted to give contestants the opportunity to witness the draw.
5. In all events, stock will not be drawn for a contestant if he/she has notified that he/she is turning out in that performance/slack.
6. No contestant may compete on the same head of stock twice at any one rodeo in the same event, except in the case of a re-ride in the riding events.
7. In the case of riding event stock injuries: after the draw has been made, replacement stock should be the designated re-ride for the performance in which the injured animal was scheduled for competition. The contestant is still responsible for all fees. A replacement designated re-ride will be drawn immediately from the turnouts for that performance. If there

are not any turnouts, a re-ride will be drawn from all available animals.

8. If a contestant arrives at a rodeo and is not listed on the day sheets, the contestant will be awarded the extra animal provided conditions of Central Entry Rule, Section E, and Rule 5 are met. Contestant is responsible for all fees.

J. DOUBLE BACKS

When a double back is needed in a rough stock event, the following procedure will be used: (all stock contractors will make an effort to ensure that their draw is fair to all contestants)

Example: 14 animals in herd with 16 contestants in first performance and 15 contestants in second performance.

1. Draw an animal for the first 14 contestants in the first performance.
2. Draws re-ride from herd with feature animals withdrawn.
3. Draw animals for the remaining two (2) contestants in the first performance from the 13 remaining animals (with drawn re-ride excluded from the draw).
4. For the second performance, use the same procedure as was used in the first performance.
5. If a double back is needed in only some of the performances or slacks, the suggested rule for drawing pens should be followed for all other performance or slacks.

K. MISDRAWS

1. **Misdraw Defined** – Any animal drawn to a contestant who must be replaced will be considered a misdraw.
2. **Three Misdraws** – If three or more head are misdraws, all unused stock shall be put back in the draw box and redrawn.
3. **Herd Defined** – In the timed events, "herd" shall be defined as those animals designated prior to the start of the first go-round to be used in a given event. Once a herd has been established for a rodeo, no animals may be added to the herd.
4. Following the cattle draw, the animal(s) remaining will be considered extra(s). From this group, the judges will draw designated extras to be used in case of a misdraw, as defined in rule K (6).
5. **Misdraw Discovered Prior to a Performance or During Slack** - In case of a misdraw discovered prior to a performance, or any time during the slack:
 - a) If one or more extras are available, all animals not competed on below the misdraw up to the end of the run

on the cattle shall be eligible to be drawn. One animal is drawn, that being the animal assigned to the contestant with the misdraw. The contestant who originally had that animal will be assigned the extra. All other contestants will be assigned the animals originally drawn for them.

- b) If no extras are available, all unused animals below the misdraw up to the end of the run on the cattle shall be eligible to be drawn, with the last unused animal drawn in that run designated the extra.
6. Misdraw Discovered After the Start of a Performance – In case a misdraw is discovered after the start of a paid performance:
- a) If an extra is available, the contestant involved will automatically be assigned the extra, regardless of a possible difference in runs on the cattle.
 - b) If no extras are available, the contestant involved will not compete as scheduled, but shall compete later in the performance or immediately after. A replacement animal will be drawn from all animals left in the run. If a contestant is scheduled at the end of a run and no animals are available from that run, one will be drawn from the herd.

L. METHOD OF DRAWING TIMED EVENT STOCK

- 1. Same stock must be used in all draws at same rodeos. If there is a turnout or medical release and the stock is already drawn for that contestant, the animal must be turned-out and no re-draw takes place.
- 2. Open team-roping cattle must be a separate herd from mixed team-roping cattle.
- 3. Timed event cattle cannot be drawn prior to two and one-half hours (2 ½) hours before each performance. The event Director, designated spokesperson, or Judge has the right one (1) hour prior to first draw to declare any stock unsatisfactory and stock so declared will be taken from the draw. Roping cattle that are replaced must be replaced by an extra that is already in the herd.
- 4. In all performances and slack in the timed events, the first three (3) contestants must run in order. Every effort will be made to adhere to this rule, however, in the event this is not possible, the following changes will be allowed:
 - a) The first contestant in the run order will NEVER be moved from that position.

- b) Contestants number two (2) or number three (3) can be moved no lower than the fifth (5th) position.
5. In the timed events, the second run on the cattle cannot be drawn until the first run is complete.
6. All cattle in the draw will be run one time before any cattle will be run twice or more except when a split performance makes this impossible by requiring several animals to be run twice in the same performance.
7. Example: Rodeo "A" has a total of 42 tie-down ropers entered. There are 18 animals in the herd. Saturday's performance has 10 contestants. Sunday morning slack has 22 contestants, Sunday's performance has 10 contestants;
 - a) Draw ten (10) animals from all animals in herd for the 10 contestants in Saturday's performance.
 - b) Draw the remaining 8 animals in the herd for the first 8 contestants in the slack. Run these 8 animals before continuing the draw.
 - c) Draw from all 18 animals in the herd for the remaining 14 contestants in the slack.
 - d) For Sunday performance, draw from only the 4 remaining animals that have been run once for the first 4 contestants.
 - e) For the remaining 6 contestants, draw from the 14 remaining animals left in the draw box which have been drawn twice.
 - f) No animals will be drawn twice for one performance. All animals will have been run twice except for 6, which will have been run 3 times. This method also minimizes segregation of cattle so that all contestants have a fair chance at the herd.

9. If no qualified rides or scores are made, ground money will be paid.

- a) Purse for that event and subtract CPRA's 5%, pay contestant the remainder.

State Secretary will assign rodeo secretaries as needed with consideration from committees and stock contractor.

3. Membership dues for non-contesting rodeo secretaries will be set by the Board of Directors and can be changed at any time following Board Action.

All re-rides and re-runs will be worked out at this time, if the decision requires such. In either instance, the judge will refer to his watch for time verification on each ride. In any instance where the time is eight or more seconds on the judge's watch, the contestant shall be entitled to a marking without penalty. In the instance the whistle blows before the eight seconds, the judge must go with the whistle. Latch judge will record times on his judge's sheet.
5. **Official Watch:** If both rough stock judges are using a watch, the LATCH JUDGE will be considered to have the official watch. In the instance where the latch judge is fouled or his watch malfunctions, the second watch may be referred to for time verification.
6. **Markings:** The ride and animal are to be marked separately. Figures used in marking the riding events shall range from zero (0) to twenty-five (25) per judge on both bucking animal and rider. By using the full spread, the total may reach a maximum of one-hundred (100) points. Markings in the riding events shall be totaled by both judges checked and posted by the rodeo secretary after each performance or section of slack. Judges are required to score rough stock animals for the duration of the ride. The half point system of scoring is added to all roughstock jackpots, CPRA sanctioned rodeos and the CPRA finals.

EVENT RULES AND JUDGING GUIDELINES

A. RIDING EVENTS

1. Ride and animal are to be marked separately. Ride will be marked according to how much the rider spurs the animal. Figures used in marking the riding events will range from one (1) to twenty-five (25) on both bucking animal and rider, using the full spread.
2. Judges in the riding events at all CPRA rodeos will hand in their marking for that event for that performance. These shall be termed the official markings, and will not be changed.
3. To qualify, Bareback or Saddle Bronc riders must have spurs over the break of the shoulders and touching the horse when the horse's front feet hit the ground on its initial movement out of the chute. The contestant's spurs must be touching the animal, but they can be rolling.
4. Livestock to be removed from the arena after completion of entry in contest.
5. Use of fireworks to frighten animals is prohibited.
6. Contestant will be disqualified for any mistreatment of livestock.
7. Any animal that becomes excessively excited so that it gets down in the chute repeatedly or tries repeatedly to jump out of the chute or in any way appears to be in danger of injuring itself should be released immediately.
8. The Board of Directors may find any CPRA member or non-member, including a stock contractor, guilty of mistreatment of livestock, and fines may be assessed.
 - a) Any contestant who mistreats an animal, as witnessed by a CPRA judge anywhere on the grounds of a facility in which a sanctioned CPRA rodeo is being held shall be fined no less than \$250. In addition, if warranted, the judge may disqualify that contestant for the remainder of the rodeo.
9. If a horse stalls either judge will tell the rider to take his feet out of the horse's neck and first jump qualifications will then be waived.
10. Rider may be disqualified for not following the judge's instructions to take his feet from the neck of the horse stalled in the chute.
11. If an animal stalls, or fouls the rider a "free roll" will be awarded.
12. All riding events will be timed for eight (8) seconds. The time

will start when the animal's inside front shoulder passes the plane of the chute.

13. If an animal that is drawn in a riding event, or is drawn in a pen, becomes sick or crippled before it is out that time, a judge must verify the animal's inability to be used before it can be shipped or replaced in the draw.
14. In case of riding event stock injuries after the draw has been made, replacement stock will be the designated re-ride for the performance in which the injured animal was scheduled for competition. The contestant is still responsible for all fees. A replacement designated re-ride should be drawn immediately from the turnouts for that performance. If there are not any turnouts, a re-ride should be drawn from all available animals.
15. If a contestant arrives at a rodeo and is not listed on the day sheets, the contestant will be awarded the extra animal provided he/she has an entry and callback verification number Central Entry Rules, Section E, rule 5, and posts a fifty (\$50) dollar bond.
16. Rider must tell one judge, flank-man, and/or stock contractor if he does not want his draw touched with the hotshot. If a contestant requests that no hotshot be used, no re-ride will be awarded if the animal stalls or runs off. However, if the animal stops, falls, or the rider is fouled, a re-ride may be awarded.
17. Judge will disqualify rider who has been advised he is next to go if he is not above the animal with his glove on when previous animal leaves the arena.
18. No quick trips allowed in horse riding events.
19. TIE-IN: The Stock Contractor must tie in a bareback or saddle bronc horse if requested by the contestant.
20. Contractor may not decline a contestants request for a neck rope in the bareback or saddle bronc riding.

B. RE-RIDES

- I. Re-ride option will be given at the discretion of a judge. Reasons for possible re-ride options are as follows:
 - a) Animal stops: A judge may award a re-ride option at his/her discretions in the event that an animal stops bucking (comes to a complete stop) at any point during the 8-second ride if such a stoppage resulted in an inferior animal performance that negatively affected the animal score. The rider must maintain control in a qualified ride up to the point at which the stoppage occurs in order to receive a re-ride option.

b) Fouled rider: A judge may award a re-ride option at his/her discretion in the event that an animal fouls a rider at any point during the 8 second ride if such foul is deemed to have directly and clearly contributed to a buck-off or disqualification. Fouls by animals shall include:

i. Rider contact with objects: A judge may award a re-ride option any time that the animal's bucks in such a manner that it causes a rider to make direct and substantial contact with the chute, chute gate, arena fencing, or another object in the arena which directly leads to a buck-off or other action that disqualifies the rider.

ii. Animal Contact with Objects: A judge may award a re-ride option at any time that an animal "hips" itself (makes contact with the bucking chute or gate). If such action resulted in a clear, definitive and substantial change in the inertia of the animal's movement which directly leads to a buck-off or other action that disqualifies the rider. Judges will use their discretion to determine if the change in inertia was substantial by evaluating whether or not the animal's motion stopped completely and abruptly, and/or was followed by an immediate and unnatural change in the direction of the animal was moving at the time contact was made with the bucking chute. If the change in the animal's inertia was not deemed by the judge to be substantial, it will not result in a re-ride option being awarded. In addition, the judge will use their discretion to evaluate whether the change in an animal's inertia, whether substantial or not directly contributed to the rider being bucked off, or resulted in any other action that disqualified the rider. A rider who successfully overcomes an initial hiping foul at the gate and is bucked off after further attempting to ride the animal will not be awarded a re-ride option.

iii. Animal Stumbles: A judge may award a re-ride any time that an animal stumble. If such action results in a clear, definitive and substantial change in the inertia of the animal's movement which directly leads to a buck-off or other action that disqualifies the rider. Judges will use their discretion to determine if the change in inertia was substantial by evaluating whether or not he

animal's motion stopped completely and abruptly, and/or was followed by an immediate and unnatural change in the direction the animal was moving at the time of the stumble occurred. If the change in the animal's inertia was not substantial, it will not result in a re-ride option being awarded. In addition, the judge will use their discretion to determine whether the change in the animal's inertia, whether substantial or not, directly contributed to the rider being bucked off, or resulted in any other action that disqualified the rider.

iv. Animal Falls: A judge will award a re-ride option any time that an animal falls and the inertia of the animal's movement is completely ceased during an 8 second ride, provided that the rider has not been previously disqualified.

- c) Stock contractor's equipment fails;
 - d) Performance of animal is inferior;
 - e) Bareback and Saddle Bronc only – If the animal backs out of the chute.
 - f) Premature Chute Gate Opening: A judge may award a re-ride option at his/her discretion in the event that the gate opens before the rider calls or nods for the gate due to the gate man error, or gate latch failure.
 - g) In the Bareback and Saddle Bronc Riding, when the horse turns out backwards, an automatic re-ride is given with a completed ride. If the rider is thrown off just after the horse leaves the gate backwards, they will be given an option at the discretion of the judges.
2. Contestant may take same animal back (providing stock contractor is willing) or contestant may demand a re-ride animal be drawn. If contestant takes the same animal back, he must take that marking. The only exception will be if contestant is fouled or there is an equipment failure.
 3. If the flank comes off, rider may receive a re-ride option provided rider has made a qualifying ride up to the point of the flank coming off.
 4. If any arena personnel come in contact with a bareback or saddle bronc horse before the qualified time has elapsed and if the contestant makes a qualifying ride, contestant will be given a marking with an option of a re-ride. If any arena personnel come in contact with a bareback or saddle bronc horse before the qualified time has elapsed and contestant is

unable to make a qualifying ride because of the impact, contestant will be given a re-ride, provided contestant made a qualifying ride up to the point of the infraction.

5. If re-ride is given, judge shall inform contestant of his marking and an option of re-ride. Contestant may refuse re-ride and take marking. Contestant must notify judge immediately of his decision to accept or reject the option.
6. No re-ride will be given if a cowboy's own equipment breaks.
7. If an animal that runs off already is drawn for another contestant, that contestant must qualify on that animal before re-ride is given.
8. If, in the opinion of the stock contractor and judges, that animal needs to be taken out of the draw, the second contestant who had him drawn will automatically get the designated re-ride.
9. If, in the opinion of the judges, a rider makes two honest efforts to get out on a chute-fighting animal and is unable to do so, he may have a re-ride drawn for him.
10. If an animal that is drawn for a re-ride already is drawn for another contestant in that or a later go-round, the contestant with the re-ride in the prior go-round will take the animal first.
11. If riding event animal stops after an initial start and any outside help is used to start it again, contestant will not be required to qualify in order to be awarded a re-ride.
12. When a final head is to be ridden in riding events, at least two additional head of stock will be available for re-rides.
13. Feature animals equaling no more than fifty percent (50%) of the herd in the riding events may be held out of the re-ride draw.
14. If needed, a replacement re-ride should be drawn from the turnouts for that performance. If there are not any turnouts, a re-ride animal will be drawn from the entire herd excluding any **previously** injured animals or the animal for which the re-ride was given.

3. If a rider makes a qualified ride with any part of the rope in his riding hand, he is to be marked.
4. The contestant will have the right to call on the judges to rule whether or not his bull is properly flanked to buck to the best of the bull's ability.
5. No more than three (3) hands will be allowed to pull the contestant's bull rope. Three hands means one person pulling and then one other hand for a bottom pull.

advantage;

- c) Using sharp spurs;
- d) Placing spurs or chaps under rope when rope is being tightened.

9. A bull rider may have the option of a re-ride or of accepting a marking if the flank comes off the animal, providing the contestant has completed a qualified ride. The re-ride may be given on the same animal if the stock contractor is willing, or a re-ride animal if requested by the contestant. The judges at that rodeo will decide the matter of re-rides, fouls, and properly flanked animals. The judge's decision will be made by the end of the bull riding at the performance in question and will be final.
10. No bull may be put in the draw until his horns have been dulled and reduced to the size of a half dollar as specified by the rulebook.
 - a) Judges are to inspect bulls' horns at least two hours prior to performance. If bulls are not available at that time, inspection will be allowed up to the time of competition. If the horns are considered too sharp or split at the end, the stock contractor must immediately tip the animal or file off split ends or the contestant gets the option of a re-ride.
 - b) If a bull is not tipped immediately there will be a fifty-dollar (\$50) fine for the first offense and progressively doubling thereafter charged to the stock contractor;
 - c) The judge must send a report to the Board of Directors of all bulls that had to be tipped or held out of the draw;
 - d) If those bulls are not tipped by the next time they are out, the fine to the contractor will be one hundred (\$100) dollars for the first offense and progressively doubling thereafter.
11. If no qualified bull rides are made in a performance the day money goes to the stock contractor.
12. In the case that all bull riders in a rodeo do not complete qualified rides, the money will be distributed as follows:
 - a) Entry fees will be split between the bull riding contestants, and given back as Ground Money. (Ground Money does not count in the standings);
 - b) Added money for the bull riding will be given back to the committee.
13. Three dollars (\$3) per entry will be added for year-end awards from all bull riding contestants.

2. No electric eye may be used in the timed events, except in the barrel race. Times will be recorded in tenths of seconds.
3. If, in the opinion of the line judge, the barrier or neck rope fouls contestant, contestant will get their animal or steer back providing contestant declares himself/herself by pulling up immediately.
4. In any timed event, if an animal escapes from the arena, or crosses back across the plane of the timed event box barrier flag will be dropped and watches stopped. The contestants will always get their animal back if it escapes with lap-and tap-start and time already spent will be added to time used in qualifying.
5. A ten-foot (10') tape must be on hand for the barrier judge. Height of barrier in time events will be from thirty-two (32) to thirty-six (36) inches measured at the center of the box. Knot behind pulley is required on all barriers.
6. Barrier judge will keep a record of the length of the barrier trip rope each performance to assure the same start for contestants in each performance. Only tying knots in the rope on either end will accomplish adjusting the length of barrier trip rope.
7. Barrier judge is responsible for changing barrier string whenever it may have been weakened or on request of next contestant.
8. Barrier rope will be made of twisted or solid braided rope with core.
9. A ten (10) second penalty will be added for breaking or beating the barrier. In all timed events, a barrier will not be considered broken unless ring drops within ten (10) feet of post.
10. The judge must inspect barrier equipment before each timed event and left in place until the end of the last performance. If equipment is faulty, it must be replaced. Should barrier break at any point other than designated breaking point, decision is up to the barrier judge. If contestant obviously beats barrier, but the staples are pulled, or barrier rope is broken and string unbroken, barrier judge may assess a ten (10) second penalty; otherwise this will not be considered a broken barrier.

11. Stock contractor of record will see that Tie-down animals are properly prepared before each rodeo, and the DRAW. At the discretion of the stock contractor and the judge, animals may be tied down prior to the 1st run on the cattle. NO ANIMAL WILL BE TIED DOWN AFTER THE DRAW.

13. Barrier judge will be sure that nobody can stand close enough to barrier or barrier equipment to tamper with it.
14. In order for time to be considered official, barrier flag must operate.
15. If automatic barrier does not work but time is recorded, contestant or team will get time. There will be no penalty for broken barrier providing judge rules that the barrier was not beaten.
16. If automatic barrier fails to work and official time has not started, contestant or team will get stock back, if a qualified run is made.
17. If rope is on animal when the animal escapes the arena, roper will get animal lap-and-tap with rope on in the chute.
18. In roping events a dropped rope that must be recoiled to be rebuilt is considered a thrown rope.
19. The person pushing the cattle in the timed events cannot leave the mouth of the box until the animal has crossed the score line. Penalty for failure to abide by this rule will be a fine charged to the contestant.
20. Animal belongs to contestant when he/she calls for animal regardless of what happens, except in cases of mechanical failure or injured animal and he/she must pull up immediately before roping to gain a re-run. At this time, the same animal will be run unless injured and then the extra animal will be run. If contestant accepts animal, he/she accepts it as sound. The judge makes final judgment of condition of animal.
21. Any contestant who mistreats an animal, as witnessed by a CPRA judge anywhere on the grounds of a facility in which a sanctioned CPRA rodeo is being held shall be fined no less than two hundred fifty dollars (\$250). In addition, if warranted, the judge may disqualify that contestant for the remainder of the rodeo.
22. All timed events, except the Ladies Barrel Race, can have at the contestant's discretion one (1) liner up to ten (10) feet past the score line but, this liner cannot move.

23. The contestant is responsible for running the stock drawn for them. If they do not compete on the correct animal drawn for them, that contestant will be given a no time and the contestant that had originally drawn the animal will compete on the animal drawn as the extra.
24. Neck ropes must be tied with string. No metal, plastic, or fiberglass hardware will be used on neck ropes.
25. There will be two (2) or more timers, a field judge, and a barrier judge. Time to be taken between the barrier flag and the field judge's flag.

3. Rope must hold animal until roper gets hand on animal.
4. The roper cannot touch the tie after giving the finished signal. Animal belongs to contestant when he calls for him regardless of what happens, except in case of mechanical failure.
5. One loop will be permitted, catch-as-catch-can. Roping animal without releasing loop from hand is not permitted.
6. There will be a twenty-five (25) second elapsed time limit in the Tie-down Roping. A whistle indicating no time will be blown by the timer at the end of the twenty-five second (25) time frame.
7. "Jerk Down" will be defined as over backwards (legs between 10 and 2 on a standard clock) with the animal landing on its back or head with all four feet in the air. Contestant will be fined twenty five dollars (\$25) for the infraction. After three (3) jerk down infractions within one season, it becomes \$100 fine for the 4th offense, \$200 for the 5th offense, \$300 for the 6th

offense, etc.

7a. If the jerk down is deemed intentional, it is classified as inhumane mistreatment of livestock, refer to Event Rules and Judging Guidelines F. Timed Events 21.

8. Contestants must adjust rope and reins in a manner that will prevent horse from dragging animal.
 - a) Drag Rule: If the roper intentionally causes the Tie-down Roping horse to drag the animal more than six (6) feet (length marked on the ground), roper will be fined one hundred (\$100) dollars for the infraction. Intentionally means caused by the roper.
 - b) Unintentional Drag: A neck rope must be used on the horse, and contestants should adjust rope and reins in a manner that will prevent horse from dragging animal. The fine for unintentionally dragging an animal excessively shall be twenty five (\$25) dollars for each infraction. Excessive dragging is defined as over 6 feet, and unintentional means not caused by the roper.
9. The field flag judge will approve the tie of animal through the use of a stopwatch, timing six (6) seconds from the time the rope horse takes his first step forward after the roper has remounted. If the rope unintentionally comes off the animal, the time will start when the roper signals the finished tie. Rope will not be removed from animal, and rope must remain slack until field judge has approved tie.
10. Roper will be disqualified for removing rope from animal after signaling for time until the field judge has approved the tie.

The stock contractor will be fined fifty dollars (\$50) each for all unusable animals.
12. The minimum length of the score at outdoor rodeos will be the length of the box, minus two (2') feet. The maximum length of the score when the automatic barrier is used will be eighteen (18) feet. Length of the box is to be measured from the center of the back end of the box to the center of the barrier.
13. All scores are subject to Director's discretion.

14. Line judge stands on the same side as roper.
15. Judge must make sure that the untie people stand clear of the animal at least twenty (20) feet and do not approach animal until judge approves the tie.
16. Stock Contractor will provide usable and desirable tie-down and breakaway animals as follows:
 - a) 1 to 34 contestants = $\frac{1}{2} + 1$;
 - b) 35 or more contestants' stock contractor must bring a minimum of 18 animals or $\frac{1}{3} + 1$, WHICHEVER IS GREATER.

EXAMPLE:

42 entries: stock contractor must bring minimum of 18 animals, since $\frac{1}{3} + 1 = 15$ animal.

60 entries: contractor must bring 21 animals ($\frac{1}{3} + 1$)

No animal may be used more than three (3) times in one day. The event Director or his representative will declare desirable and usable animal. If the stock contractor does not have the proper amount of cattle, he will be fined fifty dollars (\$50) for each animal to make the correct number.

17. Tie down animal will have a different colored ear tag than the breakaway animal.

3. **LEGAL CATCHES:** There are only three legal head catches:
 - a) Around both horns;
 - b) Half a head;
 - c) Around the neck. If hondo passes over one horn and the loop over the other, catch is illegal. If a loop crosses itself in a head catch, it is illegal. This does not include heel catches. Any heel catch behind both shoulders is legal if rope goes up heels. All bridle catches are illegal. (Bridle catch is a rope in the steer's mouth)
4. **QUESTIONED CATCH:** The judges will decide any questioned catches. If a field judge tells the header to hold the steer so the judge may inspect the head catch, and the header does not do so, the team may receive a no time.
5. **TIME TAKEN:** Time will be taken when the steer is roped, secure between both partners, both horses are facing steer in line with ropes dallied and tight. There will be a twenty-five second time limit unless at Finals.
6. **TIE ON RULE:** Any heelers 50 years or older may tie on. Under no circumstances will a header be permitted to tie on.
7. **CROSSFIRE:** The direction of the steer's body must be

changed before the heel loop can be thrown; however, if the steer stops, it must only be moving forward for the heel loop to be legal. Any heel loop thrown before the completion of the initial switch will be considered a crossfire and no time will be recorded.

8. **HEELER ROPES FRONT FOOT:** If the heeler ropes a front foot or feet in the heel loop, this is a foul catch. Should the front foot or feet come out of the heel loop prior to the team calling for time, the time will be counted. Judge will not allow any extra time for a front foot to come free.
 9. **DROPPED ROPE:** A dropped rope that must be recoiled is considered a thrown rope.
 10. **CATTLE:**
 - a) Must not be handled roughly at any time and ropers may be disqualified if in the opinion of the field judge they have intentionally done so.
 - b) No steer wrestling cattle may be used in the team roping without approval of the event Director or a recognized representative of the Team-Roping Director.

L. LADIES CLOVERLEAF BARREL RACE

1. Barrel racing is a timed event for women only. The score line and position of the barrels must be marked permanently for the entire rodeo. A diagram with measurements of the pattern will be given to the secretary by the judge prior to the first performance.
2. Time shall begin and end as soon as the horse's nose crosses over the score line. The starting and finish line shall be the same.
3. The barrel racer may go to either the right or left barrel first, completing the cloverleaf barrel pattern.
4. Positions must be drawn for each performance and slack run by central entry. Positions for short go should begin with the number one entry and precede in order to the last entry. All non-members and locals will run after the CPRA member barrel racers in the performance and in slack.
5. Contestants will be assessed a five (5) second penalty for knocking over a barrel. Touching a barrel is permitted. Should barrel be knocked over and it sets up on opposite end, the five (5) second penalty will be assessed. Barrel must be put back to proper position prior to next run.
6. Contestants will be disqualified for:
 - a) Not following the cloverleaf pattern, which constitutes only one (1) right turn and two (2) left turns or two (2) right turns and one (1) left turn;
 - b) Contestant does not present herself when her name is called. After contestant is announced three (3) times, she will automatically be disqualified;
 - c) Contestants will be disqualified for circling. (Pivoting is acceptable to start a run when entering the arena from a side entry (or gate) ONLY)
 - d) Contestant will be disqualified if she runs out of the order drawn.
7. Both judges are responsible for setting up the electric eye and making sure barrels are properly placed with the markers. One judge will flag the start/finish line from behind one electric eye. The other judge will position himself at the entrance gate to maintain contestant order, record any penalty and to keep

the arena clear for the contestant entering and exiting.

8. If, for any reason, should the barrels not be placed on the marks or the flagman is not in the correct place, things must be put in correct order immediately and all contestants who ran on the incorrect course must be re-run, with no penalty, after the performance.
9. Should the marker be gone and a tape measure be used to re-set a marker, then this is sufficient, and no re-run will be allowed.
10. Fifty-five (55) gallon drums must be used. Drums must be enclosed on both ends and in good condition. Rubber barrels or plastic barrels will not be acceptable nor will barrel pads be used. If barrel covers are used in the performance, the same barrel covers must be used in the slack.
11. The entrance and exit gate will remain the same throughout the entire rodeo. If entering through a center gate, barrel racers will continue their forward motion.
12. If barrels are set up at any time other than during a performance or slack, they must be set at a minimum of fifteen (15') feet off the markers. Under no circumstances are there to be practice runs, with or without barrels, on the markers. Any barrel racer doing so may receive a fifty-dollar (\$50) fine for the first offense, one hundred dollars (\$100) for the second and thereafter.
13. If the rodeo has additional barrel racing during the rodeo, barrels must be set on a completely different set of markers.

M. ELECTRIC EYE TIMER

1. Equipment necessary: complete electric eye timer, plus two (2) stopwatches to be operated manually. A flag judge must back up electric timer.
2. Timers will record the times that appear on the electric eye controlled read-out in hundredths while watch times are averaged and recorded in tenths plus a zero. The electric eye times will be centered over the preset markers at the score line. Electric eyes should be placed no closer than the width of the first two barrels.
3. If the electric eye malfunctions for fifty-one (51) percent (or greater) of the barrel race contestants in a performance or slack, the flag time in hundredths will be used for the entire rodeo, or go-around in multiple go-round rodeos. If the electric eye malfunctions on less than 51%, each of those contestants has the option to take the flag time, or a re-run.

This decision must be made immediately. If electric eye and flag time are both missed, the contestant will receive a re-run. If the electric eye is blown over, the contestant will take the flag time with NO Re-run option.

4. If a CPRA electric eye is available it must be used. In the event that no CPRA electric eye is available, the two-dollar (\$2) charge goes to the owner of the eye. If the timer fails to work for the rodeo the two dollars (\$2) charge will be refunded to the contestants; however, it is the contestant's responsibility to collect this money before leaving the rodeo grounds. Money not collected will go to the CPRA electric eye fund.
5. Both the electric eye times and back up flag times must be recorded on the official timer's sheet.
6. Two digital stopwatches must be used, and times averaged.

N. CLOVERLEAF BARREL PATTERN

1. Standard courses should be used whenever possible. It is important to use the whole arena, allowing as much stopping room as the arena permits. The standard distance for the Cloverleaf Barrel Pattern are as follows:
 - a) Ninety (90) feet between barrels 1 and 2;
 - b) One hundred-five (105) feet between barrels 1 and 3 and between 2 and 3;
 - c) Sixty feet (60') score line from barrels 1 and 2, if possible.
2. Maximum pattern can be no more than one hundred-five (105) feet between barrels 1 & 2 and one hundred-twenty (120) feet between barrels 1 & 3 and 2 & 3. Score line must never be more than ninety feet.
3. The following shall be used for smaller arenas:
 - a) The score line should be at least forty-five (45) feet away from barrels 1 and 2
 - b) Barrels 1 and 2 must be at least eighteen (18) feet from the side of the arena
 - c) Barrel 3 must be at least twenty-five feet (25') from back of arena. In narrow arenas, the 3rd barrel should be set at least fifteen (15) feet longer than the distance between 1st and 2nd barrel.
 - d) If returning to a closed gate there will be a minimum of forty-five feet (45') stopping distance from the score line to the arena gate.
4. When setting barrels, barrel shall be set to the inside of the markers. Dependable, secure markers should be buried as deep as possible at the location of each barrel. The starting

line shall also be marked with permanent markers on both sides of the arena.

5. The barrels shall be marked using a one hundred (100) foot measuring tape. Add five (5) feet onto the tape in order for correct measuring between barrel 1 and 3, 2 and 3. The person measuring the barrel pattern must make an arc on the ground from barrel 1 to barrel 3 and then from barrel 2 to barrel 3. Where the arc crosses is where the third barrel marker must be placed. The starting line must also be measured so that it is the same distance from barrel 1 and 2. This will ensure equal distance for barrel racers who run to either the right or the left barrel first.

O. Raking

- a) Raking must be consistent throughout the rodeo. Tractor raking is preferred; however, if hand raking is done for the first performance then it must be done for all remaining performances plus slack;
- b) The rodeo committee/arena Director is responsible for organizing the raking;
- c) At the Finals with more than one go-around, the ground will be raked between the same two (2) contestants when the order is reversed;
- d) Rake after every twelve (12) positions drawn. If a contestant is not present the rake is after the draw position (not runs on the ground) during slack and performance.
